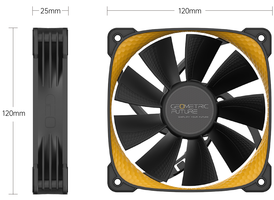
2505Y Squama

Geometric future's Squama series fan
with high-performance and low noise.Innovative design, we are different!

SPECIFICATIONS

Package	Single Pack	Triple package
Type	Squama 2505Y	Squama 2505Y
Fan Dimensions (L*w*h)mm	120 x 120 x 25mm	120 x 120 x 25mm
Color	ORANGE	ORANGE
Materials	PBT\PC\TPE	PBT\PC\TPE
Speed Mode	2000RPM(max)	2000RPM(max)
Airflow (Cfm)	91.3 CFM	91.3 CFM
Air Pressure (Mmh2o)	4.28 mmH$_2$O	4.28 mmH$_2$O
Noise Level (Dba)	35.06 dBA (max)	35.06 dBA (max)
Motor Rated Voltage (V)	12V	12V
Motor Rated Current(A)	0.32 A	0.32 A
Argb Rated Voltage (V)	5V	5V
Argb Rated Current(A)	0.29A	0.29A
Argb Rated Power(A)	1.45 W	1.45W
Led Interface	3-PIN	3-PIN
Power Interface	4-PIN	4-PIN
Packing Content	Squama 2505B Fan x 1 Screws x 4 PWM extension cord x 1	Squama 2505B Fan x 3 Screws x 12 PWM extension cord x 3
Warranty	Two-year Limited Warranty	Two-year Limited Warranty



PARTS KIT INCLUDES

GEOMETRIC FUTURE
SQUAMA 2505Y

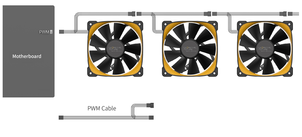
Single Pack

- Squama 2505Y Fan x 1
- Screws x 4
- PWM extension cable x1

Triple Pack

- Squama 2505Y Fan x 3
- Screws x 12
- PWM extension cable x3

风扇/ARGB线材串接主板



PRECAUTIONS

GEOMETRIC FUTURE
SQUAMA 2505Y

1. Install in accordance with the user manual' s instructions.
2. Please wear electrostatic discharge (ESD) rings and protective gloves when installing the PC.The products or components to be operated by power supply must be connected in the correct way and line sequence. Otherwise, hardware such as the computer motherboard may be burned down and personal injury may occur.
3. Do not use this product for any purpose other than the specified ones, and do not modify this product to avoid failure and damage to the product and related components.

4. To move the product and its contents, please remove all components of the product before operation to avoid damage to the product and related components,even more personal injury.
5. If you encounter any questions about product assembly or use, please consult the official customer service in time to obtain correct guidance before operation.
6. If the product and components are damaged due to unauthorized assembly,you will pay for the repair and the replacement for the components.
7. Do not insert foreign materials into the fan blade, so as not to damage the normal operation of the product.
